Good Morning, Mr. Robinson,

Thank you for your response related to the end-of-life nuclear reserve account.

Would you please affirm that the information below from the proposed Notice of Filing and Public Hearings is correct?

Thank you in advance for your response.

Duke Energy Carolinas, LLC Residential Service - Rate RS Current And Proposed Bill Example

	Current Bill	Bill After Total Effective August 1, 2024	Bill After Total Effective August 1, 2026
1,073 kWh per month	\$148.63	\$167.80	\$178.79
Percent Increase from Current Bill		(\$19.18 or 12.9% increase)	(\$10.99 or 6.5% Increase)

Monthly Bill Impacts Including Duke Energy Carolinas, LLC's Mitigation Proposal¹

			Rates Effective August 1, 2024, through July 31, 2026	Rates Effective August 1, 2026 ³
Line No.	Customer Class	Average kWh Per Bill ²	Average Monthly Bill Impact \$ Increase	Average Monthly Bill Impact \$ Increase
A	Residential	1,073	\$19.18	\$10.99
B	Commercial	4,744	\$78.11	\$26.94
C	Industrial	456,647	\$3,039.12	\$1,770.88

1 (Footnote 1) The proposed Rates Effective date is August 1, 2024. The proposed EDIT mitigant will expire July 31, 2026.

2 (Footnote 2) The Average kWh per Bill was calculated by dividing the 2022 Test Year kilowatt hours by the total number of bills for the respective customer class. Due to individual customer usage profiles, the actual monthly bill impact will vary by each individual customer within each of the rate classifications, and by month, especially for commercial and industrial customers.

3 (Footnote 3) Note: If mitigation proposals are not included, the full rate effect would take place on August 1, 2024, instead of August 1, 2026, as proposed by the Company.
